

Please keep K-LOVE on the air. I listen to K-LOVE every day while driving to and from work. While listening to K-LOVE I'm not afraid I'll hear nasty stories or listen to people talk about their sexual lives and problems. K-LOVE refreshes my days and helps keep my mind pure and focused. Many of my friends have chosen to listen to K-LOVE as well. It would be a grave mistake to take K-LOVE off the air. There are enough stations that spew filth from the speakers but K-LOVE gives people of all ages good, wholesome, and thought provoking words of wisdom and music. Please do not allow this to happen.
